SKILLS

Programming: Python

Frontend: HTML, CSS

Backend: Django

Database: MySQL

Core: OOPS

PROJECTS

E-Commerce Web Application

July 2026 – Present

Tech: Python, Django, MySQL, HTML, CSS

- Developed a full-stack e-commerce web application for browsing products and viewing detailed product information.
- Implemented user registration, login/authentication, shopping cart, checkout, and order management workflows.
- Integrated **MySQL** to manage products, users, orders, order history, and inventory data.
- Built a responsive interface using **HTML, CSS** and Django templates for a smooth shopping experience.

EXPERIENCES

Full Stack Intern – TAP Academy

July 2026 – Present

Python Full Stack Development

- Completed intensive training in **Python, Django, HTML, CSS, JavaScript, and MySQL**.
- Developed web application features involving backend logic, Django templating, database integration, and authentication.
- Worked on e-commerce workflows and practiced debugging, testing, and improving application functionality.

ACHIEVEMENTS

- Successfully completed hands-on training in Python Full Stack Development at TAP Academy.
- Developed a full-stack e-commerce application integrating Django with a MySQL database.

EDUCATION

Rajeev Institute of Technology, Hassan

2022 – 2026

B.E. in Electronics and Communication Engineering (ECE)

CGPA: 8.2
